

Does PipBoxer support micro lots?

Friday, 29 February 2008

PipBoxer supports micro lots if your broker supports them. It virtually supports any type of account and/or lots. This is included but not limited to professional accounts, standard accounts, mini accounts, standard lots (100,000 lots), mini lots (10,000 lots or 0.1 lots), and micro lots (1000 lots, or 0.01 lots).
