

PipBoxer Demo vs. PipBoxer Commercial

Monday, 03 March 2008

There are currently two major differences between PipBoxer demo and PipBoxer commercial.

- You cannot trade the demo version of PipBoxer on a live account.
- The ITM (Investatech Trades Manager) is not included in the demo package.

There is virtually no other limitations to PipBoxer demo. You can trade PipBoxer demo on as many demo accounts as you want. It also comes with all Risk Management and Money Management features that are included in the commercial version.
