

## What is the minimum account balance to trade PipBoxer?

Wednesday, 05 March 2008

If your broker lets you trade standard lots (\$100,000 lots) only then we recommend an initial account balance of at least \$15,000.00.

If your broker allows trading mini lots (\$10,000 lots) a minimum initial account balance of \$3,000.00 is recommended.

If your broker allows trading micro lots (\$1,000.00) then you can begin with a an account balance of \$1,000.00 or even less.

These are just some rough suggestions. Depending on your risk settings the minimum required balance could be different.
