

# What are the differences between the managed account service and purchasing PipBoxer EAs?

Tuesday, 04 November 2008

Last Updated Tuesday, 04 November 2008

If you are interested in trading PipBoxer you may either purchase PipBoxer Expert Advisors and trade them yourself or sign up to our Managed Account program. There are of course several differences between these two options.

## Initial Investment

When you purchase PipBoxer EAs you need to pay some money initially to obtain a commercial license. The price currently ranges from US\$329.99 for a single EA package to \$1979.94 for the complete package (this could change in the future). However when you sign up to our managed account program the initial investment is only \$99.99 (after refunding \$100 of your payment when the account is active). [Click here](#) to see the price range for PipBoxer packages. [Click here](#) to see the price for signing up to the managed account program.

## Ownership

When you purchase PipBoxer EAs you actually own them. Your license never expires and you can trade them for as long as you want. If you enroll to our managed account program you do not own PipBoxer EAs. We would use them to manage your account but you do not actually receive a copy of the EAs.

## Support

The PipBoxer EAs come with 4 months of free support and updates. After 4 months you have the option to sign up to our Extended Support program which costs you \$29.99 per month or \$215.92 per year depending on the method of payment you choose. On the other hand the cost of managed account which includes support and updates is deducted from your account on a monthly basis. It is currently \$1 per day plus 25% of your monthly profit. If there is no profit then you do not pay the percentage payment. [Click here](#) for more information.

## Supervision

While you receive support for your Expert Advisors if you enroll to our managed account your trades would be supervised by our staff directly.

## Broker

If you purchase the EAs you can virtually trade with any broker that offers MetaTrader 4 as their trading platform. If you sign up to our managed account program then you have to open your account with MIG Investments only.

No matter what your decision is, it would be our pleasure to serve you the best we can. For more information about managed accounts [click here](#). For more information about PipBoxer [click here](#). If you need more information about any of our services email your questions to [info@pipboxer.com](mailto:info@pipboxer.com).
